

Xplornet Tech Tool 1216

HV2 Beam Key Update

This Tech tool describes which beam keys are to be used during conversions and new installations and is an amendment to TechTool 1214.

Description

In order to ensure the best customer experience and proper utilization of our beam capacity it is essential that installers now use the following list of beam keys for installations and conversions.

Please ensure you are using the correct beam key, it is possible a work order may have been created before the new keys were issued and could have the wrong key information attached. Please ensure you are cross referencing with this list.

North West Territories
